and
Processes
Specializing
in Electrical and Mechanical Upgrades**

Richmond
Engineering
Works

REW Can Design & Provide New Operator Cabs as well as the Mounting Structure

REW can Design/Provide Transformers and Switch Gear

REW Pre-Fabricated Electrical Houses makes installation easy

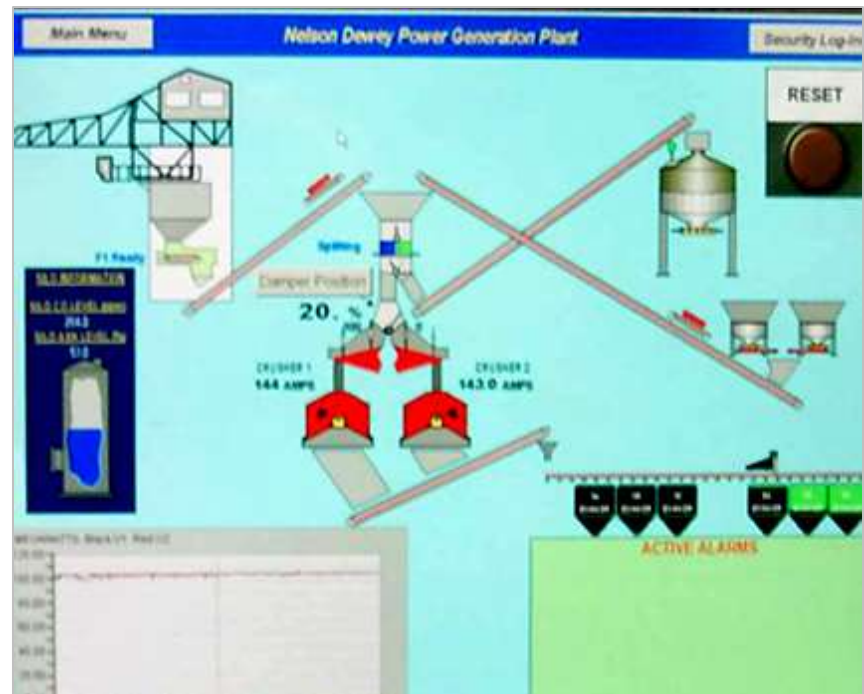

**Richmond
Engineering
Works**

REW Drives and PLC Controls

Operator Chairs and HMI Screens are more user-friendly

REW can provide new DC Motors

Overheating Brakes may be caused by your Drive

REW has Years of Experience Designing and Installing Systems

- **Rotary Car Dumpers, Stacker/Reclaimers, Grab Bucket Unloaders**
- **Coal Conveying Systems**
- **Bunker Management**
- **Fly Ash, Bottom Ash, Ash Silos, Dewatering**
- **Water Treatment & Demineralizer Retrofits**
- **Remote Control Operation & Radio/Telemetry Equipment**
- **Plant Wide Control Networking with Redundant Paths**
- **Video Monitoring**
- **Cement Mixing**
- **Hydraulic Power Units**
- **Weighing and Scales**
- **Steel, Titanium, & Aluminum Manufacturing**
- **Boiler Controls**
- **Bag House and Dust Collection**
- **Waste Water Treatment**
